# INSTALLATION INSTRUCTIONS

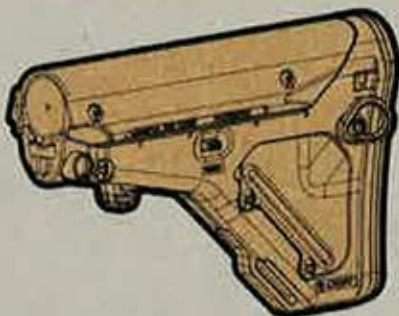

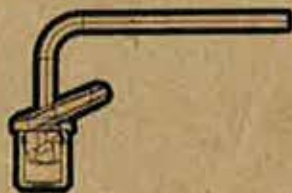

STEP 1

Using a *9/64" hex wrench*, make sure the *Paraclip Adapter Clamp Screw* is loosened enough to allow the *Paraclip Adapter Clamp* to slide completely open.

STEP 2

Insert the *Paraclip Adapter* into the *QD socket* and orient the *Paraclip Adapter Loop* to the desired position.

STEP 3

Hand tighten the *Clamp Screw* using a *9/64" hex wrench*. Support the *Paraclip Adapter Loop* to prevent it from rotating as the screw is tightened.
